ABN: 50 758 262 358

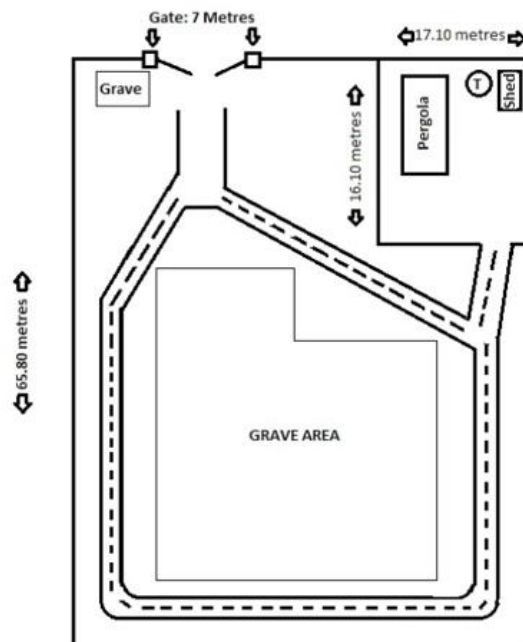

Association Number: A7747

Dear Adnyamathanha Copley community members and family members from surrounding areas and regions.

Re: Copley Cemetery East (Yuras Cemetery)

The Copley & Districts Progress Association has been asked by Copley residents to assist with the upgrade to Cemetery East. Before applying for funding, the Progress Association received support for the project and the Progress Association's involvement in the project from the Terence Coulthard, Chairperson of the Adnyamathanha Lands Council who are the lease holders of the land, and Robert Coulthard, Sub Lease Holder of Leigh Creek Station/ Ngutharpala Ngapala Yartangawould. We have received funding to upgrade town cemetery through the Outback Communities Authority's Small Projects Funding.

The Cemetery Plan below was developed, discussed and supported by Adnyamathanha residents several years ago. The Progress Association is now planning to implement the plan.

The Copley & Districts Progress Association is keen to consult with the Adnyamathanha community regarding the proposed project.

Proposed Pergola:

- Concrete pad to be installed below the proposed shade structure and will be about half a meter larger on each side than the shade structure – to be installed by Colin Davis Constructions or Clinton Wilson.
- 6m x 3m aluminium shelter (size of shelter may slightly vary) – to be installed by Clinton Wilson.
- Proposed colour for roof and posts is grey (can be changed)
- Two outdoor seats and tables – same style as at the Community Hall. Colour to be decided. To be installed by Clinton Wilson.
- The Progress Association will pay local Aboriginal residents/ family members to work with Clinton Wilson on the project.

- The long-side of the pergola will face east-west with the low side facing west.

Proposed shed

- Concrete pad and shed - to be installed by Colin Davis Constructions or Clinton Wilson.
- Approx size of shed is 3m W x 3m L x 2.4m H with roller door
- Shed will contain cement mixer and tools.

Proposed Water Tank

- 10,000L water tank
- Installed locally
