Review of the Heathgate and Quasar Native Title Mining Agreement (NTMA)

As you may be aware, the NTMAs between Heathgate, Quasar and ATLA on behalf of the Adnyamathanha community are now over 15 years old and eligible for review. It is important that historic native title agreements be reviewed, to ensure they meet Adnyamathanha aspirations and needs. This is not a review to change any payments rather it is to understand what has worked in the past, and what could be improved.

ATLA will be asking for your input to help guide our discussions. We will be holding the following community meeting sessions and invite you to download the documents for review at <https://atla.com.au/ntma-form>.
